COMMENT SECTION

- 1. How did your TAEF fellowship experience help you grow personally and/or professionally?**

As a first professional experience, this helped me grow in many ways. First, I developed leadership skills as I was given priority and responsibility to make important company decisions during my internship. Moreover, the challenging work environment helped me acquire time management and multitasking skills. I have also expanded my network as I worked on many partnerships throughout which I met with business leaders and CEOs.

- 2. What previous classes or classroom experiences were most useful in preparing you for your fellowship?**

Many courses and classes were useful but mainly, Principles of management and Academic english were prominent and significant as my work included project management as well as writing emails, concept notes and sponsorship files.

- 3. What advice would you give future fellows?**

I would advise future fellows to choose an internship that is aligned with their interests and future plans as well as their field of studies.

- 4. Would you consider doing a fellowship at this company again? Why or why not?**

I admire the people at Dabchy as well as cherish the experiences I've had there. However, I would not consider a fellowship at it again as I do not see that it will help me grow or diversify my portfolio and work experience.

5. What kind of training would you like to have in the Fellows Program?

I would like a training in the following :

- **Design Thinking**
- **SDGs**
- **International relations**
- **Sustainable Business Models**
