Business Developer Intern, Artify

Dear Tunisian American Enterprise Fund, Artify :

This letter is to express my special interest in Business Developer Position posted on the Tunisian American Enterprise Fund website. The opportunity presented in this listing is extremely appealing, and I believe that my experience and education make me a competitive candidate worthy of consideration.

In my role as Project Manager in ENACTUS TBS and Association of Cinema and Audio-Visual in Kairouan, I work daily in a variety of roles, where I am not just the manager but also the research director , speaker, workshop whiz, and marketing and program development guru. I'm not only used to wearing many hats, I sincerely enjoy it; I thrive in an environment where no two work days are exactly the same. It is precisely my ability to establish and maintain strong relationships with the team and partners, along with my capacity to lead day-to-day operations, that I am seeking this position.

I believe my combined ability to successfully manage operations while also effectively interface and communicate with partners and producers makes me a prime candidate for this role.

The key strengths that I possess for success in this position include, but are not limited to, the following:

- **I demonstrate courage and optimism in the face of ambiguous challenges**, for which there are no obvious answers—I am fleet-footed when work pivots, quickly making sense of the change so that I can point the team in the right direction.
- **I am curious and passionate about project management**—the rhythms and dynamics that make it work, across a wide range of operations.
- **I bring a fusion of systems thinking and creativity** in my ability to generate original ideas, solve complex problems, and understand all the forces required to effect change.
- **I love collaborating in teams of diverse talents and skills**—and I help each person show up as the best versions of themselves.

You will find me to be energetic, confident, and personable, the type of person on whom your team and partners will come to rely. I also have a wide breadth of experience of the type that gives you the versatility for me to serve across the startup in a number of contexts with confidence that the level of excellence you expect will be met. Please see my resume for additional information on my experience.

I hope that you'll find my experience and interests intriguing enough as I am confident that I could provide value to you and the startup as a member of your team.

Thank you for your time and consideration. I look forward to speaking with you about this opportunity.

Sincerely,

Mohamed Ismail Amara
