COMMENT SECTION

1. How did your TAEF fellowship experience help you grow personally and/or professionally?

This experience helped a lot to discover the professional world and how things work within this community. I learned how to insist and persevere when I want to know and learn something and acquire new information.

2. What previous classes or classroom experiences were most useful in preparing you for your fellowship?

Actually, within my 4th degree class I have learned a lot of new technologies that helped make the required tasks and without them I wouldn't be able to understand anything about the project.

3. What advice would you give future fellows?

I advise them to always look at the positive things of this internship, try to learn and take a lot of information and advices from you supervisor and not give up because it won't be easy at first.

4. Would you consider doing a fellowship at this company again? Why or why not?

In this company I lived in a very nice atmosphere and meet very kind people so I would be glad to make a fellowship again with them.

5. Please include any other comments or information you feel would be helpful.

The problem of this internship is that I have had to work until 5pm every day and this was very exhausting.

6. May we use this in promoting fellowships to other students? Yes / No

Yes
