

Ksibi Badis, Student in Tunis Business School , Freshman

Nothing can push me towards success like responsibility. Indeed Working with such a great company like Vega is a challenge for me , and a huge responsibility which i will carry .This opportunity will enhance my capabilities of working and surely it will reform,upgrade my skills. In fact this will improve my communication skills as a person .Thus working in Marketing digital, marketing related to IT will show me another perspective or an angle of the selling process , and definitely I will be grateful for this occasion .

Link for the event , where I was in charge of the marketing department :
