Flat6labs  
15 Avenue De Carthage, Tunis

Subject: Internship application

*PJ: Curriculum Vitae*

Dear Sir/Madam,

Holder of a Fundamental License in Finance from IHEC Carthage and currently a student in the second year of the Master Entrepreneurship at IHEC Carthage. I am really interested in an internship in Flat6labs.

My training and my associative experiences have allowed me to acquire many skills and entrepreneurial knowledge among those you are looking for, always trying to develop them through: internships, participating in entrepreneurial program and managing entrepreneurial events. In fact, more specifically, my participation in Open Startup of Tunisia 2018 and my two-month internship as a project manager in the new Lab of Attijari Bank allowed me to put into practice the knowledge and skills that I have required. During this internship, I was able to realize a whole project from scratch which was validated by the head of the department “strategy and transformation”.

Interested by the entrepreneurial structures, I decided to apply for an internship in your prestigious accelerator to support your startups and develop your community.

Working at Flat6labs represents for me a real challenge for the future in which my engagement and my honesty can be fully expressed.

I assure you that I have all the necessary assets to be part of your team such as motivation, rigor, creativity, professionalism and especially the entrepreneurial spirit in me.

Finally, I hope that my involvement and my skills will be satisfied by you. I am available for any complementary information.

Sincerely,

Emna Mokni
