I checked the Tunisian American enterprise fund site and I found this great opportunity.

## Are you involved in community work? Provide details

Yes, I am involved in community work, I am a member of we love Bizerte organization and I am doing philanthropic activities with our local community.

## Where do you see yourself in 3-5 years? Describe please

Well, I would like to be a great industrial engineer and took a managing position while organize and lead a Team. Also, I am trying my best to be an Active citizen and add value to my country by leading many interesting social projects.

## Fellow program details

---

Which type of internship are you looking for ?

Any time of the year training

---

## Why did you choose company? What did you consider in setting your priorities?

Mega company has a great reputation in the industrial field and as an industrial engineering student, I am so interested in many technical tools that the company uses. Especially, Printing and Packaging are really important axes to convince a customer, and I would like to know more about the marketing skills, manufacturing techniques and quality of production that let grow this huge company and let it more integrated into the Labor market.

## What do you think your added value would be as an intern in the chosen company?

As an industrial engineer student, I have a knowledge of Mechanical, electrical and optimization of production. I am able to give many propositions that can help the company to improve its production situation while investing less in its charges.

## What are your strengths?

I am active and dynamic I have the knowledge to manage my time perfectly. I can communicate clearly and I am able to well inform my team. I have skills to work with Microsoft Office: word, excel and PowerPoint, Software: Illustrator, Tia Portal, MATLAB, Power world, AutoCAD, ISIS, Photoshop, Draw.io, Latek ...
