Application for the business developer intern position

**Dear hiring manager,**

This letter is to express my deep interest in the Summer Business Developer intern job at Logis which has been posted on The Tunisian American Enterprise Fund Fellows. I believe that I am fully qualified and possess everything needed for this position, and therefore I am submitting my application.

My name is Hadil Harbaoui and currently, I am a first-year Business Administration student at the well-known Tunis Business School in Tunis with a 17/20 baccalaureate degree in Mathematics. There, I've had a chance to learn and gain expertise in different areas of business including finance and sales, interpersonal and communication skills, and, moreover, had a great opportunity to see what it is like to work in this evolving industry.

During my first year in university, I went out of my comfort zone by participating in multiple clubs and events throughout the year. For instance, at The Tunisian International Model United Nations where I learned how to debate therefore winning the best-delegate award in the national Simulation in December 2019, I also functioned as a public relations member within the American Chamber Of Commerce where I got to see the industrial and commercial sector from a closer look than before thanks to the network we were part of from successful Tunisian and American business owners to inspiring leaders and entrepreneurs.

Besides, two months ago I started working with DIGI'ART agency which is a digital communication agency specializing in marketing, web and communication where I pride myself in having been responsible for effectively driving in-depth marketing and communication strategies; from the conceptualization and planning stages, through to implementation and performance analysis while preparing and reviewing social media reports and communicating with clients.

What's more, I have excellent communication skills, both oral and written thanks to the subjects and courses being taught at my university. I Have a C1 English level and I am fluent in French. Finally, I am very proud of my well-developed negotiation skills and my team-oriented attitude.

My desire is to put my skills and knowledge to use in a professional environment That will help me build my future career as a passionate and driven business student.

I am sure, given the opportunity, I can bring significant value to add to your organization, utilizing my appropriate skill set, little evolving experience, and education.

Thank you for taking the time to read my letter; I look forward to hearing back from you

**Kind regards,**

**Hadil Harbaoui**
