Dear Recruiting Manager,

I am writing today to express my interest in your recently posted opening for a new Intern. I am looking to apply my skills and abilities to a challenging, growth-oriented position with a company like Datavision while continuing to build my academic foundation.

My training course has allowed me to develop abilities and skills in Data Science. I am eager for the opportunity to learn from and support your team by applying my motivation, teamwork and organization skills.

My focus is to utilize my strengths in working on group projects to make a positive impact. I enjoy gathering, organizing and analyzing information, working in groups and contributing to project works.

Not only I am confident that I would execute the role successfully but I also believe that it would be an opportunity for me to develop my knowledge and gain valuable experience.

Please review my resume for additional details. I welcome the opportunity to speak with you about my qualifications. Thank you for your consideration and I look forward to hearing from you.

**Sincerely,  
Ines Zouari**
