

## 2019 TAEF Fellows - Student Evaluation

When completing the evaluation below, remember that it is important to give serious thought to the rankings. If more space is needed when completing the comments section, please add additional sheets. The goal of the evaluation is twofold.

1. To provide the opportunity for students to give constructive feedback on all aspects of their professional fellowship.
2. To provide information that will be helpful to future students considering a fellowship with that organization.

## COMMENT SECTION

---

**1. How did your TAEF fellowship experience help you grow personally and/or professionally?**

Students recognize me in TAEF website and reach out to me to ask me for some advices before applying.

**2. What previous classes or classroom experiences were most useful in preparing you for your fellowship?**

Open Startup Tunisia taught a lot about creating a startup, running a business and competing. It was obvious for me, to integrate Flat6Labs and support startups, I needed at least to know the different aspects of a startup, the challenges that founders can go through ect. I knew none of it before participating at OST.

**3. What advice would you give future fellows?**

Take the time to read all the internships offers, do research on the startups to apply for the right one. An internship within a company in TAEF Portfolio is more that just a list of tasks an intern is asked to do. You have to know and share the values and endorse the vision of the startup. You will be asked to take initiatives and do new tasks. Don't be afraid, you are there to learn.

**4. Would you consider doing a fellowship at this company again? Why or why not?**

Yes, without any doubt. I love everything about this company, the spirit, the mindset and the team itself.

**5. Please include any other comments or information you feel would be helpful.**

N/A

**6. May we use this in promoting fellowships to other students? Yes / No**

Please No
