

## BIO

Hello I 'am Mohamed Amine Kharrat  
Business student – Tunis Business School

Hi, My name is Mohamed Amine Kharrat, and I ' am a business student at Tunis business school (TBS).

I had a Baccalaureate in Experimental Science at Ibn Khaldun High School of Kairouan in 2019. I was passionate about science, human body, bacteria ect .. and I saw myself in the position of a doctor, but slowly I have begun indulging in the world of business and entrepreneurial, and I saw that this field is going to be the future of work. So I decided to start this thrilling quest of discovering this mysterious world and finding my strengths in it.

I ended up going to Tunis Business School to study Business administration, and there I discovered a whole new world. A lot of opportunities and new horizons opened up for me as I learned more about Marketing, management, and entrepreneurship, and my passion for business grew day by day.

What made my integration easier is enrolling in multiple clubs and seizing all the opportunities. I ' am a member of AmCham TBS, ATLAS Future leaders TBS-Chapter, and I was a member of JCI TBS in all these clubs I was in the project management department, but I always wanted to change and discover the nature of work of the other departments, that is why I worked with a team to establish a new club in TBS and I was the Co-Chief Marketing & sales officer which helped me to test my skills ,and to acquire new ones . Besides, I Love communicating with people and argue with them that is why I Have participated in Soliya a connect program and Multiple MUNs.

Now, I 'am seeking a more professional life that is why I enrolled in the TAEF program which helped me get in touch with EXO MEA. I hope this journey will be full of hard work and Fun.
