## **1/why did you select the TAEF fellows program?**

I am going to start with a quote that inspires me every time it is by William Arthur ward saying “ opportunities are like sunrises, if you wait too long you miss them”.I am a person who always tries to seek these opportunities in life and do not waste them, and the TAEF fellow program was the best way to achieve them. Furthermore, I selected the TAEF Fellows program because I wanted to expand my networking, get in touch with people from various domains that I am sure one day we will need each other. Finally, the fact that it will help me boost my skills, and acquire new ones especially the hard ones.

## **2/what’s unique in your experience and immersion in the prof world :**

In my experience the atmosphere of work was so motivating, the coworkers were so helpful, I learned a lot from them. This experience showed me that the prof world needs a lot of commitment, and hardworking. It teaches me how to be responsible for my tasks and respect deadlines. The professional world makes you practice what you have learned and gives you the ability to practice new things.

## **3/ key takeaways: part of an alumni / strengthen the network / get a job / launch my startup**

To be honest, it is a mixte of all the things, I want to be part of the alumni, which will help me strengthen my network. Moreover, since I am a business student I am thinking of opening my own startup so they are a combination that will help me in my career.
