

June 14, 2020

Dear Sir/Madam,

I am writing to express my interest in securing an internship position in Flat6Labs Tunis (Startup Performance Intern, Program Operations Intern, Business Development Intern). I am a student at the South Mediterranean University pursuing an engineering degree in Computer System. I come from a solid technical background with a strong interest in tech-entrepreneurship and a passion for strategy.

Last summer, I was one of the entrepreneurial leadership educators with the African Leadership Academy, South Africa. I conducted several sessions in entrepreneurial skills and prepare new lessons' plans and concepts. In addition, my experience as Blockchain Writer & Editor-in-Chief with Decentral Magazine had helped me to combine my engineering studies and business skills.

As a co-founder & COO at Archivart (a tech-startup incubated at Founder Institute and Afkar incubator, that helps African Contemporary Artists to live from their artworks), I was working mainly on designing and implementing business strategies and comprehensive goals for performance and growth to work on different African countries. I was also collaborating with different partners including NGOs, artists, and other startups.

As my resume indicates, I have demonstrated strong leadership and decision-making skills through active participation in different campus departments and organizations. In my effort to continue to develop these important skills, I will serve as a Demola Fellow this coming year, teaming with students, faculty members, and firms to create an innovative sales process for Bee Net (a Tunisian internet provider) that fits its evolving business in North Africa.

I am excited about the many facets of the Tunisian entrepreneurial ecosystem and welcome the opportunity to discuss opportunities to explore in Flat6Labs Tunis. I am readily available via email or phone in order to arrange an interview and have attached my resume. Please do not hesitate to contact me if you have any questions. I appreciate your consideration and look forward to hearing from you.

Sincerely,  
Khalil Liouane
