Ms. Lilia Ben Yahia

Communication and PR manager

Tunisian American Enterprise Fund

Immeuble Zénith avenue du La Bourse

Les Jardins du lac, Tunis ,1053

Dear Ms. Ben Yahia:

I found out from Mr. Maher at Tiamed that the Tunisian American Enterprise Fund is making a limited number of internships available to local students. Thank you so much for the opportunity. With this cover letter I am writing to apply for such funding.

I am an Industrial and logistics Engineering student at the national engineering school of Carthage and hope to apply for internships throughout the year. I plan to major in logistic and would be pleased to train at Tiamed during the summer before my senior year and the summer before I graduate to learn more, apply my knowledge and be part of Tiameds' development. I also see in this program a way to give back to your organization should you decide to select me for one of your internships.

If you wish to interview me I'd be happy to meet you in person at a time and day that works for you. I'm available on weekdays and weekends.

In the meantime, thank you very much for considering me for the internship program by reading this cover letter and my resume.

I hope to hear from you soon.

Best regards,

Mohamed Zied Torkhani
