Summer Internship Application

Dear Mr./Ms./Dr. Director,

I am writing to apply for the summer internship position that was listed in TAEF Fellows Program (Proxym-Group). I believe my skills and programming experience make me an ideal candidate. I am looking for a practical internship, integrated into my training, for a duration of two months and which may begin in July 15.

About Me _____

I am currently a student in the 2nd year Engineer Cycle in Computer Science specializing in software engineering at the Higher School of Applied Sciences and Private Technology of Gabes (ESSAT Gabes).

Why Proxym-Group ? _____

Proxym-Group, leader in its field, recognized for its reliability and the quality of its products, as part of an internship would be a great opportunity for me to discover in detail the accounting profession and its missions!

Why Me ? _____

I am passionate about everything related to IT and really motivated. Indeed, I chose for my training the software engineering option and I therefore took programming courses on OpenClassrooms and Coursera which allowed me to deepen my knowledge in web development. Serious and pragmatic, the experiences acquired in contact with reality and during the various group missions at school allowed me to approach Soft Skills and to carry out missions in perfect autonomy.

Sincerely,

Oussama NAIRI
