Flat6Labs

Dear Sir/Madam,

My name is Yesmine Mansar. I am a Junior student at Tunis Business School, majoring in Business Analytics and minoring in IT. I am writing you this letter to share my deep interest in a summer internship within your office, at Flat6Labs, as a Business Analytics intern.

In fact, I am a passionate Business student. I followed this path with a full conviction that it is the field I belong to, and that it is a growing area in our country and in the world. Startups nowadays are growing, and Smart Management of its Data is a key factor to explore its internal health, its growth opportunities, and its external relevance in its market, specially that Decision making should no longer be a random process in such a rapidly-evolving environment.

I understand how critical and important this field is, and the serious work that has to be put being part of Flat6Labs environment, but those are actually the reasons that make me keen to live an insightful and enriching experience and to learn practical tools and processes, striving to optimize my contribution output and boost the team's work results.

I firmly believe, that besides my academics, my extra-curricular activities have granted me a diversefied experience, that you will find attached in my CV, making me a fast learner and a hard worker with a great sense of commitment and flexibility. I am seeking to learn, and to work hard to bring an added value to your company and I hope to get the chance to do so as your intern.

Looking forward to hearing from you.

Cordially,

**Yesmine Mansar**
