## Dear Hiring Team,

I am writing to apply for the Startup Performance summer Internship position at Flat6labs that was listed in the published intern role briefs. I believe my experience and skillset make me a most suitable candidate.

I have a rich experience with community life at my university, TBS. In addition, through the B.S.B.A program at my school, I gained theoretical knowledge about achieving operational success, organizational culture and good business practices. Moreover, I receive a collection of trainings about management that helped provide me with many insights and lessons on the culture of "Kaizen".

During the last to years, I heavily engaged in community life at TBS by joining clubs, attending events and becoming a board member: The experience of managing a department on my own at TIMUN TBS helped me develop my follow up skills, conduct performance analysis of both the department and the members and improve my leadership style. Moreover, I had the opportunity to learn how to standardize new procedures, provide trainings, innovate methods, conduct research and manage crises while I learned at L2M TBS how to be the face of an organization, represent its identity and culture and perform strategic analysis.

I am confident that I will contribute will be beneficial. This internship will be my ideal opportunity to begin my entrepreneurial journey.

Thank you for your consideration.

Sincerely,  
Taha Yacine Ayoub.
